## SELECTMEN'S AND OVERSEERS' REPORT

The past year has seen the continued growth and development of the Town of Yarmouth as one of the leading suburban communities of the Greater Portland Area. Municipal growth has carried with it various degrees of participation in Federal and State Programs.

The Municipal Officers continued their negotiations with the U.S. Army Engineers Corp. on the dredging of the Royal River channel and basin and negotiated a private contract for the dredging of a channel to the new town landing, as required by last year's annual Town Meeting. Delays were caused by engineering surveys and contract negotiations. The town channel is scheduled for dredging this spring and completion before June 30th of this year. These projects relate to the tidal river below the lower falls.

In addition to dredging projects of the tidal river, the town of Yarmouth last June joined with other towns of the Royal River community in making application for Federal assistance under the Watershed Protection and Flood Prevention Act for improvement of the fresh waters of the Royal River. This program involves the cleaning up of the silt in the fresh water river, building of fish ladders over the river dams, the introduction of sea-run Brown Trout and Atlantic Salmon spawning grounds, as well as other fish and wildlife development. Depending upon Federal survey results and local participation recreational facilities may become a part of the program.

The sewer program, which is in a more advanced stage of progress than the other two projects, is also a matter of Federal-State participation. The Special Town Meeting in November authorized the Selectmen to make application to the Federal Government for an interest-free loan for final surveys on the new sewer and filtration plant. With the assistance of Edward C. Jordan Engineers these applications have been formulated and submitted. We wish to thank Ray McDonald of the State Water Improvement Commission and the many others who have assisted us in the many complex details.

As indicated by the Planning Board Report Yarmouth is also to have a new U.S. Post Office. We extend thanks to Mr. Earl Bagley of the Post Office Department for the many long hours spent in working with committees and individuals on the problems of location.

The Central Maine Power Company has progressed rapidly and on schedule with its 12 to 15 million dollar expansion program. The Selectmen have stood, and do stand ready to assist in every way in the completion of this project.

Not the least of the Municipal Projects this past year has been the School Building Program. In November the Selectmen were constituted a Building Committee for the new Rowe School Addition with Bond issue of \$200,000. The administrative details here involved are many and are the subject of a separate report.

Many hours were spent with interviews, negotiations, and bids for the new \$25,000 dollar Fire Department Apparatus which was purchased this past summer; and we now have one of finest pieces of equipment in this section of the State. The costs of equipment are high but the low insurance rates because of our fine Department with its up to date apparatus more than compensate for cost of equipment.

The Administrative details of a Municipality such as ours increases daily. Surplus Food and Commodities with its requirement of Federal Record keeping, Aid to Dependent Children programs, Town Poor Relief, (which has increased in the past year), Tax records, Mapping, Zoning, Ordinance expansion, Building Codes, Highways, Bond Issues, Amortization and Reserve Accounts, and Personnel,—to mention only a few, when considered in the light of a three-quarter million dollar annual operating budget brings us to the realization that today Yarmouth is big business. This past year we have purchased more office equipment, had records bound, and we are asking the town for money to collect and correlate old records which are becoming increasingly more important.

This past year the Selectmen conducted over 40 personnel interviews for applications for police and highway departments jobs. Many weeks of nothing but interviews on job applications should be avoided if possible in the future because of the numerous other details of the Selectmen's work. We wish to thank Sargent Buzzel of the State Police, Sheriff Hoyt and Deputy Earl Chase of the county sheriffs department for their assistance on police matters.

Our congratulations to the North Yarmouth Academy on its Expansion Program and new Dining Hall. This private

Academy situated in the heart of the Town with its old New England architecture gives character and tone to the entire Town. We thank Jack Mitchell, the Headmaster for allowing the Town's Recreation Committee the use of the tennis courts during the summer. Good Luck on the Fund drive for a new gym and dormitories.

The Selectmen here express the Town's gratitude for the \$28,000 trust fund received as part of the residue of the Bessie A. Farwell estate. Bessie Farwell died in Boston in 1924. Distribution had to await the death of her daughter Etta Grace Clarke. The funds constitute a permanent trust with income only to be used. The will states:

"I suggest that the Town use the income from this property in beautifying the cemetery grounds by planting trees, shrubs and flowers, and by placing an iron fence on the street side of the cemetery. (Other parts of the will refer to the cemetery in Yarmouth where her father Nathaniel True is buried, adjoining the old Baptist Church) I also suggest that the income of a portion of this fund be used to aid needy families and individuals of the Town. . . to be used for such purpose and in such manner as the Town may deem wise."

It won't be too many years before the problems of Town Office Management will have to be faced by the citizens. We do not suggest or recommend a Town Manager form of government—but Office Management with a full time executive secretary to answer mail—set up proper file systems—and advise the Board of Selectmen through progress reports should be given real consideration for the near future.

BOARD OF SELECTMEN

MILTON A. NIXON

J. WARREN RAYNES

BUEL J. FERGUSON

## CIVIL DEFENSE

The local Civil Defense organization became activated and organized under the Direction of Mr. Colin Campbell. Mr. Campbell was transferred to Ohio in September and since that time Mr. O. Sherman Yale has participated as acting Director. Mr. Yale can not assume the leadership because of business commitments. Yarmouth is now looking for a full time Director. We wish to thank Mr. Campbell, Mr. Yale and Mrs. Katherine Tinker of the county organization for their work in this area during the past year.

Yarmouth is part of the Civil Defense complex which has county headquarters in Gorham. Colonel Earle O. Thornton of Cape Elizabeth, has been of great assistance to the Town of Yarmouth in keeping the Town upon an eligibility basis for (1) Surplus Property and (2) matching funds.

Colonel Thornton has assisted the Director and the Office of Selectmen in the preparation of requisite Operational Plans (now on file in the Town Office and State Headquarters). He has also assisted in the preparation of Annexes governing attack, warning, communications, engineering, police service, fire and rescue, and numerous other prerequisites for proper Town Eligibility.

Through the efforts of Colonel Gordon Carter and Colonel Thornton a C. D. Engineer conducted a survey and prescribed specification for making a P.F. 100 headquarters at the Library. We are obtaining cost estimates. We thank Architect Wilfred Baudette for his work in this matter.

Respectfully submitted,

MILTON A. NIXON,

J. WARREN RAYNES,

B. J. FERGUSON,

Selectmen.

**ASSESSORS' REPORT**

Tax Rate, 1963: \$26.00 per Thousand

Real Estate, resident	\$12,007,080.00	
Real Estate, non-resident	4,990,070.00	
Personal Estate, resident	764,860.00	
Personal Estate, non-resident	12,736,130.00	
	<hr/>	
		\$30,498,140.00

**Assessments**

County Tax	\$ 29,232.00	
Town Tax	754,305.13	
Overlay	12,369.51

The mapping and valuation has been kept up to date by the firms of Cole, Layer and Trumble and Wright and Pierce Engineers.

The Assessors will be in session at the Town Office on the first three days of April to receive declarations and hear complaints. Unless you present a true and perfect list of your taxable property (both real and personal) either in person or in writing, at this time, you are barred from appealing your valuation for that year. Watercraft are considered personal property and should be so declared.

All map reference numbers refer to Assessors' maps made by Wright and Pierce for the Town of Yarmouth.

Urban maps numbered U-1 to U-19 incl.  
Rural maps, R-1 to R-5 incl.  
Island maps, I-1 to I-14 incl.

Respectfully submitted,

MILTON A. NIXON,  
J. WARREN RAYNES,  
BUEL J. FERGUSON,  
Board of Assessors.

### TOWN CLERK'S REPORT

The following is the number of births, deaths and marriages recorded up to December 31, 1963 in the Town of Yarmouth. State Law forbids the printing of names of births, deaths and marriages, but these records are available to anyone directly interested in them.

Births	83
Marriages	43
Deaths	72

Respectfully submitted,

PHYLLIS M. TINKER,  
Town Clerk.

### REPORT OF YARMOUTH FIRE DEPARTMENT

In 1963 there were 45 alarms and 17 stills for an estimated loss of \$15,500. There were three major fires, a dwelling belonging to Mrs. Alice Rounds, a shaving shed owned by Eastern Builders Supplies and the chicken house of Leverett Walsh.

The American LaFrance fire truck arrived in July and was placed at Engine 2 on Center St. This is a 1,000 gallon pumper fully equipped and a fine piece of fire fighting equipment. There is a pumper now at each engine house along with a ladder truck, an emergency truck and a tank wagon, which makes Yarmouth one of the best equipped departments of its size in the state.

The firemen hold practices each week to familiarize each one with all phases of fire fighting and to learn how to operate the trucks in the best manner. They also keep the equipment in first class condition which saves the townspeople money. We are proud of our department and our record of fire fighting.

I recommend an addition to the Cousins Island Engine house. At the present time their equipment takes up all available space in the fire house. We need room for drying hose, holding meetings and practices, especially in the winter time. There should also be some painting done on this building this year.

It will be necessary to spend money on the alarm system in changing over wires and replacing same. This should not be too costly.

By order of the Federal Communication Commission the radios are being narrow banded and a second frequency installed. This will allow us to be in communication with other towns and cities in the state or only our own trucks. This is very important when other places have fires at the same time we do.

I am proposing some regulations relating to the storage of fuel oil, liquid gas and to burning permits which I hope the town will see fit to pass. They will harm no one and will help us to help you.

My thanks to the selectmen, the town office force and the people of Yarmouth. My special thanks to the men of the department for their fine work and cooperation the past year.

Respectfully submitted,

ERNEST A. WINSLOW,

Fire Chief.

## REPORT OF THE CHIEF OF POLICE

At the March town meeting in 1963, it was voted to put on two regular full time men. After screening by three selectmen, one Deputy Sheriff, a Sgt. of the Maine State Police, and myself, the two men were picked. I had them ride with me for two weeks so they would become familiar with the town.

They started on May 5, 1963. One of the officers at a later date resigned because of unforeseen circumstances. Another man was picked to take his place. The set-up has worked out very well by staggering the hours. The town has been covered nearly 24 hours.

In January I started the man on foot going on duty at 2:00 P.M. until 10:00 P.M. At 6 o'clock he would drive the Wagon until 10 P.M. Then I go on duty at 10 P.M. until 6 or 7 A.M. The man on days goes from 8 A.M. until 6 P.M.

The Wagon with three persons driving it, had about 80,000 miles on it when the original motor had to be replaced. The Wagon now at this writing has 84,920 miles. It has been recommended by me and the budget committee and selectmen that a second vehicle be purchased and equipped. Then the town will be divided into two districts. One car covering each one up until 10 P.M. or midnight. Then one vehicle will be used to cover the town for the rest of the time. By using one vehicle to cover from 10 P.M. until 6 or 7 A.M. and alternating the cars weekly, you will not be putting all the miles on one vehicle, as is now being done with the wagon.

Below is a summary of the number of offences covered by the Department:

Number of accidents investigated	32
Number of defect cards issued	440
Number of warning cards issued	142
Complaints taken care of	370
Number of arrests made	200
Speeding	116
Stop signs	23
Operating without lights	1
No license	24
Impudent driving	4
Operating motor scooter on sidewalk	2

Operating under influence	3
Operating unregistered motor vehicle	3
Driving to endanger	3
Leaving scene of accident	1
Passing on grade	1
Failure to report accident	1
Intoxication	1
Illegal possession of intoxicating beverages	6
Excessive noise with motor vehicle	5
Passing on Railroad crossing	3
Larceny	2
Breaking and entering and larceny	1
Number of ambulance calls	16
Ill boys and girls taken home from school	10
Stolen property recovered and it's value, 1 boat and motor, 1 radio recovered \$850.00	
Stolen car recovered	1
Number of doors and windows found unlocked or open	12
Escapes apprehended	8
Death messages delivered	4
Locate messages delivered	6
Messages from other departments	6
Missing persons	8
Family arguments	10

The fire department is adding another frequency on it's radio, to be used locally. It is planned that the police vehicles will have radios in the vehicles on this frequency, which will also tie in with one radio in the Highway Department, to be used only if vehicles cannot be contacted by regular means. The above was talked over at a meeting with the Chairman of the Budget Comm., the Fire Chief, Selectmen, Supt. of the Highway Dept. and myself.

In May I had defect cards printed for the department use, plus arrest summons, complaint sheets, which are used giving nature of complaints, time and date, also the name of the complainant. Printed also were arrest reports. They state who

arrested, where arrested, and for what offence, what court, amount of fine, whether plea of guilty or not guilty and by what officer. All are placed on file.

I wish to thank every one for their cooperation and assistance.

Respectfully submitted,

LESTER E. GRAHAM,

Chief of Police.

## REPORT OF PUBLIC WORKS

I was appointed Superintendent of Public Works by the Selectmen on April 24, 1963. Included in Public Works are common roads and maintenance, tarring and resurfacing, snow removal, plowing and sanding, sewer maintenance, repair and rebuilding sidewalks and curbing, dump maintenance, and bridges and wharfs, plus maintenance and care of baseball field, memorial sites and lawns and other maintenance such as town equipment and the town garage.

This year we rebuilt Sunset Point Road and put gravel surface on Seashore Drive. New curbing and a new sidewalk were put in front of Masonic Hall as the beginning of a general facelifting for Main Street. As many roads were resurfaced as money allowed and we plan to continue these projects this coming year.

General maintenance of roads and ditches plus work on the older sewers in town keep us quite busy.

It will be necessary to purchase additional snow plowing equipment this year mainly to replace our Oskosh which is worn out and completely undependable. We also have more roads to plow, with more being added each year. A new truck can be used for gravel, tarring, etc. while the Oskosh cannot be used except for snow plowing only.

We should also have a wheel tractor for sweeping streets, plowing sidewalks, laying curbing, etc. which would save considerable money for us plus increase the life of our track type front end loader.

I am aware that many roads in town need rebuilding but this will be delayed by the future sewer program.

Respectfully submitted,

JAMES G. TAPLIN,

Supt. of Public Works.

**REPORT OF LOCAL HEALTH OFFICER****For the Year 1963**

During the past year, there have been relatively few problems in Yarmouth in the health field. This was, apparently, a result of the unusual weather conditions which prevailed, with a dry period at the time when, in the early summer, sewage problems usually occur, and with a fall which did not create the usual rash of flu, etc.

Communicable diseases, too, have been very light throughout the year.

The principle problems which have occurred have been long-range ones—that of proper observance of the law forbidding untreated sewage disposal into the salt water in the Princes Point area, and of establishing a workable and reasonably efficient checking system for our Health Code which has, as yet, not been done to our satisfaction.

Respectfully submitted,

KENNETH G. LARRABEE,

Health Officer.

**REPORT OF PUBLIC HEALTH NURSE  
YARMOUTH — 1963**

Your public health nurse, a member of the staff of the Division of Public Health Nursing, provided public health nursing services in the town of Yarmouth during the year of 1963. The nurse usually spends two days a week providing health supervision and skilled nursing care, assisting the health council in community health activities and other community groups. Her activities include work in the home, school and child health conferences. In all phases of the work, emphasis is placed on the prevention of disease, the promotion of health and in providing part time skilled nursing care that best meets the needs of the individual patient.

Your public health nurse participates in the monthly child health conference, which is held the 3rd Wednesday of every month. Any children under school age may attend these conferences for medical supervision.

Statistics for the Child Health Conferences are as follows:

Attendance:

Infants	55
Preschool children	63
Physical examinations	66

The following number of children completed immunization:

Smallpox	24
Diphtheria, Whooping Cough, Tetanus	38
Polio	20

Your public health nurse takes an active part in the school program, it is done in the following manner:

1. Periodic visits to school personnel.
2. Arrangements for selected screening tests of vision and hearing.
3. Planning and assisting with school health examinations and immunization clinics.
4. Home visits to children with known or suspected health problems.

Twenty five conferences were held with individual teachers. During the month of January, children in the sub-primary and seventh grades will be given the tuberculin test. Parents must request that this test be done. The tuberculin testing program is a screening device to help locate unknown cases of tuberculosis in the community.

During the year, 58 visits were made to patients over 65 years of age, 53 visits were to assist patients with rehabilitative measures and nursing care. The other five visits were to give health supervision. This program is carried on under the supervision of the family physician.

Home care of patients will probably be the greatest area of expansion of medical care in the next few years. The function of the public health nurse in this program will be to give, arrange for, teach or supervise nursing care of the sick and injured, and to carry out nursing skills contributing to treatment and rehabilitation. Treatments and, when required, diagnostic and preventive procedures are carried out under medical direction.

The assistance given the public health nurse by the health council, town officials, school personnel and local physicians has been most gratefully appreciated. Working together, the goal, better health for the community, can be reached.

Respectfully submitted,

THERESA M. McNEIL,

Public Health Nurse.

## REPORT OF YARMOUTH HEALTH COUNCIL

Our activities have continued without incident for the improved health of our town. The health council has a membership of 84 and meets the first Monday of every other month starting in October. There is an additional meeting in May in the form of a membership coffee to acquaint new interested townspeople in the workings of the council.

### Well Baby Conference

The Well Baby Conference is held at the First Parish Congregational Church on the third Wednesday of each month, at 9 a. m. Dr. Barron F. McIntire Jr. and Miss Theresa M. McNeil R. N. are in attendance along with volunteers from the Yarmouth Health Council. During the period from June 19, 1963 until January 15, 1964, one hundred three (103) children received physicals and/or shots. Free physicals and vaccinations have been offered to babies and pre-school children. Immunization shots have been offered at a small charge. Mrs. Roger A. Dunn has been chairman in charge.

### School Physicals and Immunization Clinics

School physicals were conducted by Dr. McIntire and Miss McNeil. Children from grades 1, 4, 7, and 11 were seen this year, making a total of 342 children examined. Interdermal TB tests have also been offered to sub-primary and 7th grade children. Immunization clinics were also held in April and May. Mrs. Robert J. Lewis has been chairman in charge assisted by Mrs. Melvin C. Cash.

### Dental Clinic

The Dental Clinic, a United Fund Agency, was held for three weeks in January with Dr. Harvey Desjardins of Lewiston as the attending dentist and Mrs. Warren Raynes the nurse. 219 children were seen, an increase of 16 over the number examined in 1963. Volunteers from the Health Council assisted with transportation and the appointment desk as well as dental health education for sub-primary through grade 8. Dr. Desjardins lectured and distributed crest kits to each child in grade 3. Free toothbrushes were given by the Health Council to all the children attending the dental clinic. Mrs. Richard Hayden was chairman; Mrs. Richard Walker, co-chairman.

### Loan Closet

The Health Council has a variety of sick room supplies available for any resident of Yarmouth. These may be borrowed simply by calling Mrs. Phyllis Tinker at the town office.

At the February meeting Mr. James H. Decker, executive director of Child and Family Services, spoke to the Council regarding the new services offered by the Child and Family Services at 187 Middle Street in Portland which are now available to the people of Yarmouth. The Clergy of the town, the school superintendent, guidance counselor and organizational presidents were invited guests. There have been several suggestions for new programs, which would benefit Yarmouth. A committee is acting on the possibility of a preventive dental program. This goal will be under consideration for the future. The Health Council is conscientiously working toward better health for all.

Respectfully submitted,

MARJORIE M. YALE,

President.

## REPORT OF THE YARMOUTH BOARD OF HEALTH

The Yarmouth Board of Health is composed of Mrs. Richard M. Boyd, Ch. Dr. Barron F. McIntire, Jr., Dr. William E. Freeman, and the Health Officer, Mr. Kenneth Larrabee, Ex-Officio.

Three Poliomyelitis Clinics were held in March, May and June in conjunction with the Portland Junior Chamber of Commerce for areawide immunization with Sabin Oral Vaccine. Over 1000 residents of Yarmouth received the complete series of the three types of vaccine.

A follow-up one-day clinic is planned for March 15, 1964 for immunization with any of the three types of Sabin Oral Polio Vaccine.

Respectfully submitted,

KATHARINE W. BOYD,

Chairman.

## DOGS AND CATS

To the Citizens of Yarmouth:

Through cooperative arrangements with the Society for the Prevention of Cruelty to Animals the Town of Yarmouth has entered into a plan for the care and disposition of lost, strayed, or injured dogs and cats.

Call Kenneth Fordham  
829-3944

Mr. Fordham is required to have Yarmouth Town Office approval before acting.

OFFICE OF SELECTMEN.

**REPORT OF TREE WARDEN**

As authorized by an Ordinance passed at the last Town Meeting, pruning of elm trees during the past year was done on a strip extending 300 to 500 feet back from streets. This back yard area was included so that dead elm wood, breeding place of beetles which carry Dutch Elm Disease, would be eliminated.

An area on the west side of Main Street extending from Summer Street to the intersection of High and Pleasant Streets, and on the east side of Main from Elm Street to Route 1, was pruned including all elms on built up sections of streets west of Main which had not been pruned within three years.

Two or three more years of this type of pruning would probably cover all the built up areas of the town.

Last spring a very thorough dormant spray was applied to the elms on Main Street between Sligo Road and Pleasant Street. Results appear to have been very satisfactory, and I strongly recommend the same treatment this year.

Several valuable elms were lost during the past year, but I believe the present control measures offer the best chance of saving the most trees for the longest time.

Everyone has been most cooperative, and I especially want to thank the V. I. S. and the Garden Club for their interest and help through the year.

Please continue to report damaged or wilting and browning trees, and for word of tree replacements please consult the Tree Committee Report on another page.

Respectfully submitted,

FRANK A. KNIGHT,

Tree Warden.

## REPORT OF THE TREE COMMITTEE

In 1963, the Tree Committee continued its efforts to plant trees to enhance the beauty of town areas. Most notable, this year, are the five maples set out in back of the library, parallel to the approach to Route 1. The flowering crabs ringing the Memorial Lawn, planted several years ago, are doing well and will be complemented by the maples planted along the sidewalk.

Trees were made available for private plantings, and response in this respect has been encouraging. A large part of these requests have come from the Newell Road and Rogers Road areas. It is planned that trees will again be available this spring for private properties.

The members of the committee feel that substantial progress has been made during the two years since formation. Within a few years the results of its work will be more clearly seen, and we hope will add significantly to the aspect of the town.

Respectfully submitted,

D. M. BREWER,

Secretary.

## REPORT OF THE CLAM WARDEN

To the Citizens of Yarmouth:

As Clam Warden of Yarmouth I would like to make the following report of my activities for the past year.

During the past year a considerable amount of time has been spent by the Clam Committee, Sea and Shore Fisheries Advisor and myself checking out results of areas which were chosen to deposit gravel and lime by which to improve flats for seed clam growth. The results of the tests proved nearly all negative.

We are not completely discouraged because of the results of this particular experiment. New ways and means of improving our present conservation area and additional areas are anticipated this coming year.

Our present conservation area has improved somewhat since it was reopened to the taking of clams and marine worms. A large amount of the area was turned over by worm digging, by which loosening of the mud and thinning out some of the small clams has proven worthwhile to the growing of the remaining clams.

Surveying of Shore property will continue, including more of the Littlejohns and Cousins Island areas.

A State wide program of area management is now in progress in some areas.

It is anticipated that such a program will be set up in this area with our present program.

Inspection of Flats of Islands and Mainland have been made by boat and car when tides and weather permitted.

During the past year five violators were taken to court and fines imposed.

A large number of inquiries were made in regard to the taking of clams, quahogs, mussels and marine worms.

At this time I would like to thank the Selectmen and Clam Committee for their many efforts and help this past year. Also to our many shore and summer residents for their interest and help.

Respectfully submitted,

ERNEST E. GRANT,

Clam Warden,

## REPORT OF THE CLAM COMMITTEE

To the Citizens of Yarmouth:

The Yarmouth Clam Committee which was appointed by the Selectmen in 1960 are pleased to report at this time on its progress and activities.

The purpose of this committee is to find out and remedy all circumstances which involve the closing of clam producing areas to digging, to pursue the testing of clam meats for bac-

teria, taking water samples, analysis of the degree of pollution in all areas, submit any and all findings to the Sea & Shore Fisheries Dept. and work in conjunction with them to alleviate and remedy conditions which have caused the pollution and restrictions of clamming in the Town of Yarmouth.

This was a major undertaking and more was involved than that which was first recognized. Cooperation from the Sea & Shore Fisheries was requested. Biologist Donald Harriman was sent to help work out our problems and make the necessary tests and samplings. His assistance and generosity in time and labor have been invaluable. This committee makes Mr. Harriman's letter of Feb. 18, 1964 a part of this report, which follows:

Clam Committee and  
Board of Selectmen  
Yarmouth, Maine

Gentlemen:

In 1963 the Cousins Island-Littlejohn Island conservation area was permanently opened. Portions of this flat have consistently collected set, but because of the poor growth, few clams reached the two-inch minimum size limit adopted by the Town.

The Clam Committee recommended at the time this flat was opened that the two-inch limit not be enforced on clams dug from the conservation area.

The experimental use of limestone and gravel treatments in the area south of the conservation area and in Broad Cove was terminated. The Broad Cove area failed to collect enough spat to measure. In the Cousins-Littlejohn flat a slight negative correlation was found with the lime treatments, while there was a slight temporary advantage gained by the use of gravel. The advantage is quickly destroyed by the collection of silt over the gravel deposits.

In this location mortality was apparently more important in limiting the number of surviving juvenile clams than was the treatment. There was much evidence of drilling by snails, and we can only speculate whether the rate of siltation was an important factor in addition to the drill activity.

In Broad Cove there are many mussels and tube worms on the bottom used in the experiment. The failure of the set may be a result of competition from these species, the ingestion of larvae by one or more of the species present, or a simple failure of hydrographic patterns to leave clams in the Cove at setting stage.

Chemical agents are being developed in oyster raising states to control starfish and drills on the ocean floor. The Clam Committee considered an experiment to test certain of the chemicals on some of the unproductive flats but decided to await further developments elsewhere before trying these agents.

Pollution is still a major problem to the Yarmouth clam resource. Partly as a result of higher bacterial counts and partly as a result of more stringent enforcements of existing standards much of the clam flat has been removed from production. Recent work in clam depuration (or cleansing) has opened the possibility of marketing moderately contaminated clams through controlled channels. These plants may be operated by private enterprise or as municipal operations depending upon local circumstance, but the Department does not plan to operate in this field except on a pilot basis to demonstrate the feasibility.

A survey of polluted clam flats was started in the summer of 1963 and will be completed. This will provide information on the value of the clam resource which is unavailable because of contamination. This distribution will also provide some estimate of the value of the resource which will be released, and an estimate of the production which may be available when depuration facilities are available.

In 1963, a commercial-scale harvest of moderately polluted clams was made for use in the Sea & Shore Fisheries pilot depuration plant. Because of difficulties in recruiting diggers, fewer clams were harvested than had been hoped. The purpose of the experiment was to demonstrate whether cleansing at full plant capacity followed the same pattern as small loads. Although this provided less load than hoped, it did provide more than had been previously available. Three factors prevented further attempts

in Yarmouth: 1. The clams were more highly contaminated than is really desirable for depuration (they were satisfactory after 48 rather than 24 hours); 2. There was a high mortality occurring in the flats, and many of the clams were so weak that they died in depuration and storage (this has no probable connection with the pollution); and 3. The market became saturated at about the time of the experiment, making disposal of more clams difficult.

At this time, I would like to thank the members of the Clam Committee who have worked on these projects, in some cases at considerable personal sacrifice.

Sincerely yours,

DONALD M. HARRIMAN,  
Marine Resources Scientist.

The continuation of the conservation and research program as described by the foregoing letter and report are particularly significant in view of the changes passed by the 101st Legislature in relation to the Sea & Shore Fisheries Laws & Regulation revised to Sept. 21, 1963, Sections 49A, 50, 61—Ch. 7 which cover special and private town laws and ordinances concerning the digging of clams, quahogs, mussels and marine worms. The resulting changes are in part as follows:

Any special and private town laws and ordinances (which Yarmouth has) become void and non-existent as of July 1, 1964. All legal flats and digging areas will be open to any and all diggers who have a residence in the State of Maine, BUT—Any town may retain the rights and privileges of their special and private laws and ordinances if:

1. A management and conservation program is submitted to the Commissioner of Dept. of Sea & Shore Fisheries and is acceptable to him.
2. That the town meeting passes a local ordinance to protect its programs.

It is also suggested each town raise or allocate a sum of money to carry on these programs.

Yarmouth has been working under a cooperative management plan for three years without cost to the town. Money has been donated from private sources. The pres-

ent Clam Committee is asking the Town to support a continued management program by accepting a new shellfish ordinance and allocating \$250. for necessary expenses involved in survey work. This will qualify Yarmouth with the State recommendations and let us continue our work to utilize this natural resource we have.

The main shore line of Yarmouth is closed to all digging except a short section at the head of Broad Cove. We are working to open the White's Cove to Princes Point area by taking water samples and test diggings to determine the amount of pollution involved. Much of this shore front is a border line case and its possible we may succeed in getting it opened for digging during the cold weather months.

With the new sewer plan for Yarmouth which will clean up Royal River the pollution problem will resolve itself and the re-opening of potential clam areas could mean a substantial source of income for many people as in the past, before the closing of our most productive areas became necessary.

Neighboring towns have recognized the importance of these programs and are taking these same requests to their respective town meetings this year.

Our proposed program for 1964 is as follows:

1. Appointment of a Shellfish Conservation Committee.
2. Raise or allocate funds for management and the survey or resources.
3. In cooperation with the Sea & Shore Fisheries Dept. conduct survey of available potential areas.
4. Establish a management program as indicated by these surveys.
5. Conduct small scale experiments if untried procedures are indicated.
6. Survey moderately polluted areas to determine resources available for cleansing.

7. Cooperate with other Towns, agencies or individuals in establishing cleansing facilities when and if feasible.

Respectfully submitted,

**YARMOUTH CLAM COMMITTEE**

Nathan Thompson

Ernest Grant

Robert MacKinnon

Robert Collins

Edward Collins

J. Warren Raynes, Rep. Selectmen

March 2, 1964

Board of Selectmen

Yarmouth Town Office

P. O. Box 155

Yarmouth, Maine

Attention: Mr. J. Warren Raynes

Gentlemen:

We have received your letter dated February 25, 1964, that outlines your past efforts in the interest of shellfish conservation and your general plans for the future.

We hereby approve this program, and compliment your group on their demonstrated interests in behalf of the community's marine resources.

On a number of occasions, Mr. Harriman has expressed his satisfaction and pleasure in working with you, and we look forward to continued cooperative activities.

Very truly yours,

**RONALD W. GREEN,**

Commissioner.

## REPORT OF THE PLANNING BOARD

During 1963 the Planning Board cooperated with the School Building Committee in planning for the necessary new school rooms. Arthur Hodsdon was appointed to represent the Board on the Committee. The two groups met together and reached essential agreement as to the number of rooms needed and when and where they should be built.

The sewer problem has been under consideration throughout the year. The new plan presented by the Edward C. Jordan engineering firm has been chosen as satisfactory. The Board is undertaking the purchase of the necessary land for the treatment plant. At a special Town Meeting in November the Town voted authority to the Selectmen to apply to the Federal Government for interest-free funds to be used for detailed engineering plans.

Some progress has been made in laying out new roads. A survey is now underway for a projected road to run roughly parallel to Main Street in the western part of Town.

In working on these two latter programs it has been necessary to hold consultations with officials of the State Highway and Water Improvement Commissions. Such meetings are always time-consuming and this accounts in part for the slow pace at which we seem to progress.

The Board cooperated with the Post Office Department in the selection of a site for a new Post Office which the Department claims to be necessary. The site chosen—Dr. Arsenault's lot near the Library—is considered to be the most advantageous to the Town of those available.

Consideration has been given to changes in the Zoning and Subdivision Ordinances as proposed by the Building Inspectors and Fire Chief. An Article in the Warrant for the March Town Meeting presents amendments embodying these and other ideas for the approval of the Town.

**ROADS:** New roads, properly laid out, are of primary importance for the satisfactory development of the outlying sections of the Town. This requires study to determine where such roads should be and surveys made to specify the land necessary to be reserved for them, prior to any further subdivisions and houses being created. The cooperation of the

land-owners is necessary to accomplish this most expeditiously. When a road has been laid out, it must be presented to the Town for acceptance and placed on the Official Map of the Town. Construction does not have to take place, nor the land deeded to the Town, until the road is needed.

SEWERS: The treatment of the Town's wastes before they are emptied into the River will result in the reopening of the flats along the River and Bay shores to clamming and in the habitability of the River for certain food fish such as alewives. The Department of Sea and Shore Fisheries has given estimates of the possible income to the Town if the clamming industry is reestablished.

Respectfully submitted,

RICHARD BOYD,

Chairman.

#### PLANNING BOARD

Richard Boyd, Chairman

Arthur Hodsdon

W. L. George

Donald Leadbetter

Bernard Elfring

Warren Hutchings

Katherine Tinker, Secretary.

#### REPORT OF BUILDING INSPECTOR

To the Citizens of Yarmouth:

There have been 132 construction permits totaling \$15,519,959.00 issued this year.

This is broken down as follows:

23 permits for new homes	\$ 286,955.00
22 permits for non-resident buildings	15,073,525.00
79 permits for additions and alterations	135,739.00
3 permits for signs	5,190.00
2 permits for swimming pools	4,250.00
1 permit for a trailer	4,300.00
1 permit for a propane fuel tank	10,000.00

The amount this year is noticeably higher because of the \$15,000.00 permit taken out by the Central Maine Power Company. Exclusive of this figure, the number of permits and their value is about the average for the past four years.

I wish to thank the Town Officials for their help and the Citizens of Yarmouth for their co-operation.

Respectfully submitted,

GEORGE A. LOMBARD,  
Building Inspector.

### REPORT OF ELECTRICAL INSPECTOR

To the Board of Selectmen:

During the year 1963 there were ninetyone wiring permits issued for new construction and alterations in Yarmouth.

It has been a pleasure for me to represent the Town as your Electrical Inspector. After working thirty-six years as a construction electrician and being very familiar with the National Electric Code, it comes very easy for me to enforce the provisions of the Code.

During the later part of the year, the Inspectors in the Town of Cape Elizabeth, Cumberland, Falmouth, Gorham, Gray, Scarborough, Windham and Yarmouth have had four interesting meetings and have agreed upon a uniform interpretation of the Code Rules as they apply to Towns of our size.

I want to thank the Board of Selectmen for their support and assistance and cooperation extended to me during the year. Also Mr. Elliot Hanson, Alternate Electrical Inspector, and the Central Maine Power Company, and all who have cooperated by securing their permits and having their wiring inspected.

**ATTENTION: ALL CONTRACTORS INSTALLING WIRING IN YARMOUTH:—Permits and Inspection are required.**

Respectfully submitted,

ROY M. FITTS,  
Electrical Inspector.

## MERRILL MEMORIAL LIBRARY REPORT

To the Trustees of Merrill Memorial Library:

I herewith submit my report as Treasurer for the year ending December 31, 1963:

## Receipts

Balance on Hand, January 1, 1963	\$	68.21
Town of Yarmouth	\$	4,750.00
State of Maine		176.90
William S. Nelson Trust Fund		469.66
Joseph E. Merrill Trust Fund		177.25
Esther Mayall Fund		51.70

Repairs and Maintenance	233.29
Miscellaneous	129.90
	\$ 6,375.51

Respectfully submitted this thirteenth day of January, 1964

E. FOSTER BISHOP,

Treasurer.

### REPORT OF THE YARMOUTH RECREATION COMMITTEE FOR THE YEAR 1963

In this, the first report of the newly created Yarmouth Recreation Committee, we wish to explain our duties and responsibilities as assigned by the Selectmen and Planning Board, and to briefly review the past year and plans for the coming year.

Duties include the budgeting and expenditure of all funds appropriated by the Town for recreational purposes. They also include short and long range planning for a coordinated recreational program.

The Committee has been of the unanimous opinion that, in this town of relatively small area and population, it will be wise to aim at first quality facilities, tempering the expense of this by limiting ourselves, insofar as possible, to a single facility and avoiding costly duplication. Cooperation on the part of scheduling should make this possible.

In general, the Committee agrees upon the following principles for the future:

1. That in the instance of activities involving adults over high school age, the Town should furnish good facilities (as in Bennett Field), but the Town should not be responsible for the operating expenses of the teams

or individuals (other than those which are, essentially, a part of the facility).

2. That in the instance of activities involving those of High School age or under, subsidy should be made after token payments (as in the swimming program) which will not deny the activity to those who could not afford otherwise to participate.
3. That sums of money voted to the Recreation Committee shall be retained by the Town, which shall pay directly bills incurred by the agencies and authorized by the Committee, and that monies shall not be paid directly to agencies for recreational activities, thus insuring that unexpended funds shall revert, annually, to the Town.

During the past year, the Committee has stimulated or assisted many local groups in the field of recreation. Cousins Island Beach, which the Lions Club furnished assistance to, is one of these. The Girl Scouts also assisted at the beach. The Explorer Scouts, Post 95, and the Boy Scouts have provided labor and supervision at the skating rink. The Jaycees have started to clear a park behind the ballfield, and work will proceed on this during the coming year under their direction. Ralph Stevens contributed a small building in which tools and supplies may be kept at the skating rink. These and many others have given complete cooperation to the Committee and the Town. And we should not forget to mention the constant cooperation of the Road Commissioner and his crew, and of the Selectmen. The Committee wants to express its sincere appreciation to these and to the many who have not been mentioned for their labors and constructive suggestions and, not least, for the expenses incurred by them which they have absorbed.

The Committee met on ten different occasions between the March Town Meeting and Jan. 1, 1964. Additionally, each member of the Committee undertook specific tasks.

During the coming year, the Committee hopes to assist the Jaycees in their development of the park area behind Bennett Field; plans to develop a first class Little League field at the present sight on North St.; expects to be able to present, a year from now, a reasonable plan for the construction of toilets and/or bathhouses at Cousins Island Beach; to further improve

both facilities and supervision at the skating rink; to maintain and provide some slight improvements at Bennett Field; to improve, where possible, youth activities such as swimming, tennis and the Youth Center.

Yarmouth is fortunate in having many citizens who are interested in these activities and who are providing supervision and direction. Their contributions are outstanding and relatively unknown by many of us. The Recreation Committee is appreciative of their efforts.

WILLIAM ENGLAND,  
HARRY PORTER,  
KATHERINE BOYD,  
KENNETH G. LARRABEE,  
Chairman,  
RUTH HALL,  
RICHARD MARKHAM,  
ROY REARDON,  
Yarmouth Recreation Committee.

## YARMOUTH HISTORICAL SOCIETY MUSEUM REPORT

### A Review of 4 Years Experience—1964

This report represents an appraisal of our present situation in the light of accomplishments during the past 4 years. From 1905 to 1959 Lewis Hall, on the 2nd floor of the M M Library building, was a large empty room. Today Lewis Hall has become alive, permeated with the spirit of community cooperation, and the generous giving of our towns-people.

A definite concept influenced the establishment of a museum in Lewis Hall. It was to implement Yarmouth's rich Heritage, a Tradition glorified by outstanding Personages and notable achievements despite the savagery of hostile Indian Tribes, and hardships imposed by very limited monetary means.

The growth of our museum is indicative of a sound community spirit, and the generous giving of time, talent, and many many objects of historic value.

The museum operates under the supervision of our legally incorporated Yarmouth Historical Society.

Our Guest books are filled with hundreds of local and out-of-state signatures of interested viewers. Aside from our permanent displays of a few thousand objects, a great number of viewers came to see the transient exhibits, Civil War, dolls, hobbies, and shells. Several classes of Grade School children were invited guests to hear lectures on the history of Yarmouth, and on rocks and minerals. These proved very popular.

The time is now here for our museum to take its place with other History Museums in our State, and become a member of the League of Historical Societies of Maine. To qualify for membership in the League we must first professionalize our entire operational pattern. This pattern to conform with modern standards approved by the American Association for State and Local History. Our Proposed Budget suggests the manner and cost of upgrading our operational pattern to a professional level. This procedure will necessitate financial aid from our Town. The amount of such aid will be stated at Town meeting.

Respectfully submitted,

INEZ HATHAWAY,

President.

GEORGE W. GARNISS,

Curator.

## REPORT OF SELECTMEN PERTAINING TO NEW SCHOOL

February, 1964

The voters by Referendum vote in November 1963 constituted the selectmen as a new Building Committee to build a ten room addition to the Rowe School. The voters rejected the program which the school administration and the school board (which was part of the original building committee) had previously recommended.

The cold legal fact is that schools are built and paid for by citizens of towns but the citizens can only build what school boards, and State Educations Departments will approve. School Boards will only approve what meets proper standards. If a school board and a citizenry can't agree—the result is that nothing gets done. In this respect the school children are the losers. This should be avoided at all possible costs.

The selectmen as the new building committee set out upon its very difficult task by appointing advisory members from both—the Taxpayers Association and the School Board.

The new building committee spent the first several weeks investigating matters of state assistance through the Department of Education, the Maine Municipal Association, the University of Maine and the matter of employing an architect. James C. Sanders Associates of Yarmouth who had designed the Rowe School and the Rowe School Addition was hired. Various preliminary plans with additions, alterations, problems of the site location, problems of finance have been the subject of almost weekly meetings since the first of the year.

The parties have attempted to resolve their differences. The two story 10 room structure with 825 square foot rooms as originally suggested by the Taxpayers was objectionable to the School Board because (among other things)

1. Small children should not be carrying hot lunch trays up and down flights of stairs.
2. The room size of 825 square feet are smaller than the other 900 square foot rooms of the Rowe School and would not be up to the standards already established at the school. 900 square feet is recommended by the State.

3. The suggested building did not have adequate all purpose room area for the school program already in existence and planned for the future such as (1) team teaching and (2) ungraded primary (3) cafeteria (4) Physical Education (5) library and resource center (6) assemblies (7) music (8) large group instruction.
4. Lack of administrative office space for new ten room addition.
5. Lack of provisions for playground area.

The committee, in an effort to meet the inadequacies above stated within the limited budget of \$200,000 agreed to change the location of the building from the rear of the Rowe School to the front of the existing buildings. Land preparation in the rear would cost an estimated \$20,000. No preparation is necessary in front. It was hoped that with this \$20,000 saving a satisfactory structure could be built.

The committee is aware that the town has gone to considerable expense in past years in land preparation and beautifying the grounds in front of the Rowe School. We are not happy about partially destroying them. We are aware of the possible future criticism of our compromise Building Plans.

For these reasons and because the citizens have never had an opportunity to express themselves on this matter so vital to the town, we have determined to give the citizens a chance to approve or disapprove our plans. (See Article 27 of Warrant).

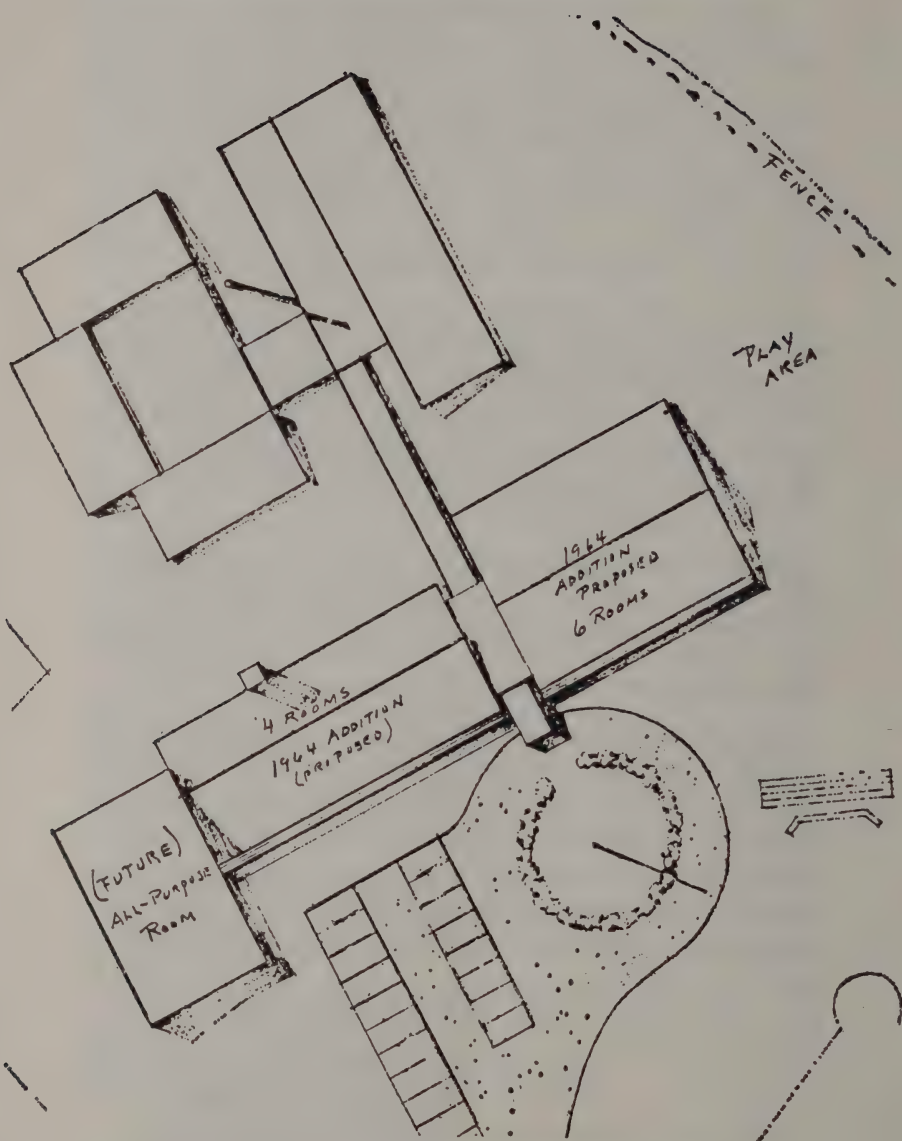

If our plan is approved it is our hope to have the plans finished in April, contracts awarded by May with spring construction and completion by early fall. (See sketch attached).

MILTON A. NIXON,

J. W. RAYNES,

BUEL J. FERGUSON,

Selectmen.

*Yarmouth School Addition*

## REPORT OF THE ELEMENTARY SUPERVISOR

To the Superintending School Committee and Citizens of Yarmouth:

Because of an insufficient number of classrooms, properly located, it has been necessary to have an inefficient and unsatisfactory system of grade housing this year. Two classes of grade six are in the junior high school building while the third class is in the Central School. Two classes of grade three are in the Rowe School, and the other two classes are in the Central School. All teachers are doing a very commendable job with their classes, but the degree of teamwork among teachers, and the uniformity of curriculum suffer when classes of a grade are located in different schools.

The steady growth of the school population continues at all levels, but seems to be more pronounced at the primary level. The size of the present subprimary grade will necessitate a fifth first grade classroom next year. Also, a room should be made available for another sixth grade class next year. (Grade six must be removed from the junior high building very soon because those rooms will be necessary for the use of grades seven and eight.) If the present trend continues, it will require two additional classrooms per year for the immediate future, and at present all available rooms are in use.

It is our sincere wish, and we believe it to be very educationally sound, that housing will be provided so that a 3-3-6 plan of organization will be possible. If the three primary grades are together, the three intermediate grades together, and the six junior and senior high grades together, the curriculum offerings and their implementation can be most ideal. The ages, interests, and school programs of the above named groups of pupils are very similar and compatible. The kind of school housing provided has a direct bearing on the school program that will be available for many years in the future, therefore, it is highly essential that proper planning be done, and that all additions to the physical properties be predicated on the desired school program.

Having been associated with the Yarmouth Schools for nearly thirty years, it is very satisfying to note the steady improvement of the school plant, and what is more important, the outstanding improvement of the school program in recent

years. These improvements have been brought about by the determination of the citizens of the town to have good schools, and to provide the funds necessary to have good facilities and good teachers.

We are very thankful for the cooperation of parents, friends, and all citizens who have contributed to the success of the schools. Again may we extend an invitation to you to visit your schools.

Respectfully submitted,

HAMILTON B. GRANT,

Supervisor.

### REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Citizens of Yarmouth:

I hereby submit my annual report as principal of Yarmouth High School. As of February 1, our enrollment was 86 freshmen, 79 sophomores, 79 juniors, and 44 seniors, thereby totaling 288. Included in these figures are 23 tuition pupils from North Yarmouth and 3 from Pownal. There is an increase of 30 resident pupils from last year.

By courses, 53% of the students are in the college preparatory program, 32% are in the general, and the remaining 15% are in the business education program. The latter program does not begin until the sophomore year. There has been an increase in the number of students taking homemaking and industrial arts as well as business education. This trend is expected to continue.

During the summer, every student is individually programed, rather than by sections. For example, there are instances of students being in track 1 college preparatory in all subjects except mathematics. There are also some students taking a combination college preparatory-general program. Where possible, we try to arrange a total schedule that best meets the strengths and weaknesses of the individual student. James B. Conant refers to this in the "American High School Today" as one of his recommendations for improving public secondary education.

On April 16 of last year, we became accredited by the State Department of Education. This accreditation is valid for a five-year period.

We were fortunate again to have little change in our faculty. I hope the school and community are able to maintain this pattern. While some change in personnel is desirable, a nucleus of returning teachers is one indication of a good school.

Special programs being carried on this year include a reading room involving the use of SRA materials and reading accelerators. We also are distributing paperbacks in the library. The purpose of this latter procedure is to encourage reading by more students. We hope this will lead to a greater circulation of our regular library books.

We are particularly grateful to Yarmouth businessmen who are supporting the school newspaper and yearbook. Your co-operation is much appreciated. It should also be noted that many individuals and families give a great deal of time and effort to maintain our American Field Service program.

I would like to publicly thank the superintendent of schools and the school board for their support and encouragement.

Respectfully submitted,

DANIEL E. CENTER, JR.,

Principal.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Yarmouth:

Some of the more important factors contributing to the overall improvement of the Yarmouth educational system in 1963 were as follows:

Extension of the modern mathematics program.

Coordination of the programs in science and English in grades 7-12.

A newly instigated summer program in driver education.

Organization of a reading laboratory at Yarmouth High School.

Accreditation of the Jr.-Sr. High School by the State Department of Education.

The introduction of speech as part of the High School English program.

A continuous effort on the part of the Yarmouth School Committee to study all phases of education and to insist on improvements wherever such improvements may result in benefiting the school children of Yarmouth.

Plans for team teaching and the introduction of the non-graded primary will be postponed until facilities are provided which may be adaptable to such programs. Your Committee will continue to study any new programs which may eventually benefit the children of Yarmouth.

Respectfully submitted,

JAMES B. MORRISON, JR.,

Superintendent of Schools.

## AUDITOR'S REPORT

## STATE OF MAINE

State Department of Audit

Augusta

July 8, 1963

Board of Selectmen

Yarmouth,

Maine

In accordance with Chapter 90-A, Revised Statutes of 1954, as amended, an audit has been conducted of the financial records of the Town of Yarmouth for the fiscal year ended January 31, 1963.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Within the scope of the examination, the financial transactions were appropriately handled, with such exceptions as may be noted in the accompanying commentary.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at January 31, 1963, and the results of its operations for the year then ended.

Respectfully submitted,

MICHAEL A. NAPOLITANO,

State Auditor.

## WARRANT

## Annual Town Meeting March 20, 1964

To Lester E. Graham, a Constable of the Town of Yarmouth,  
State of Maine:

## GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Yarmouth, qualified to vote in town affairs, to meet in the Masonic Hall, in said Town, Friday, the 20th day of March A.D. 1964, at 10:00 A.M. to act on the following articles, to wit:

Article 1. To elect a moderator to preside over said meeting.

Art. 2. To ballot on all necessary Town Officers for the ensuing year, except moderator.

**Note:** The polls will be open for this purpose from 10:00 A.M. to 7:00 P.M. and the officers will be elected on a single ballot provided by the Town. At 7:00 P.M. the meeting will adjourn until 7:30 P.M. Business will be resumed at Yarmouth High School.

Art. 3. To hear and act upon the report of the Selectmen, Assessors, Overseers of the Poor, Treasurer, Superintendent of Schools, Chief of Fire Department, also the report of any other Officers or Committee.

Art. 4. To see what sum of money the Town will raise and appropriate for General Government: (1) Selectmen; (2) Assessors, (a) Salary, (b) Assessors' expense account, (c) Mapping and Appraisals; (3) Overseers of the Poor; (4) Town Clerk; (5) Tax Collector; (6) Treasurer; (7) Attorney; (8) Elections; (9) Registrar; (10) Departmental Expenses; (11) Bookkeeper and Office Clerk; (12) Contingent Fund.

(Committee of 12 Recommends \$20,088.00)

Art. 5. To see what sum of money the Town will raise and appropriate for Protection of Persons and Property: (1) Police Department, (a) Salary of Chief, (b) Salary of Assistant, (c)

Auto Expense, (d) Departmental Expense, (e) Special Police, (f) Second Car; (2) Fire Department, (a) Salary of Chief, (b) Allowance for Companies, (c) Clothing Allowance, (d) Expenses and Maintenance, (e) Supplies and Equipment, (f) Addition to Island Fire House; (3) Oxygen; (4) Inspections, (a) Fire, (b) Plumbing; (5) Insurance on Town Property; (6) Workmen's Compensation; (7) Federal Old Age Insurance; (8) Civil Defense, (a) Expenses; (9) Clam Warden, (a) Salary, (b) Expenses.

(Committee of 12 Recommends \$42,135.00)

Art. 6. To see what sum of money the Town will raise and appropriate for Health, Welfare and Sanitation: (1) Health Officer, (a) Salary, (b) Expenses; (2) Vaccine and Drugs; (3) Garbage Collections; (4) Welfare, (a) Local Charity, (b) Dependent Children; (5) State Health Nurse; (6) Athletics and Recreation.

(Committee of 12 Recommends \$25,295.00)

Art. 7. To see what sum of money shall be applied to the Department of Public Works accounts from Excise Tax receipts and State Aid.

(Committee of 12 Recommends \$36,700.00)

Art. 8. To see what sum of money the Town will raise and appropriate for the Department of Public Works: (1) Highways, (a) Common Roads, (b) Bituminals, (c) Snow Removal, (d) Curbs, Sidewalks and Crosswalks, (e) Maintenance, (f) Reserve Fund for replacement of equipment, (g) State Aid; (2) Public Works, (a) Bridges, Wharves, Town Landings and Wells, (b) Dump, (c) Sewers, (d) Memorial Sites.

(Committee of 12 Recommends \$62,796.00)

Art. 9. To see what sum of money the Town will raise and appropriate for Unclassified Accounts: (1) Public Utilities, (a) Water, (b) New Hydrants, (c) Street Lights, (d) New Lights, (e) Blinker lights; (2) Merrill Memorial Library; (3) Cemeteries; (4) Trees, Local Care and Maintenance; (5) Plan-

ning Board; (6) Advertising, (a) Maine Publicity Bureau, (b) Area Development Council Dues; (7) Memorial Day; (8) Historical Society.

Site for an access road, the location still to be determined; and to appropriate funds for this purpose from the reserve fund which has been set up for the sewer program (Article 25 Annual Town Warrant for 1963).

Art. 20. To see if the Town will vote to amend the Zoning, Subdivision and Public Ways Ordinances of the Town copies of which proposed Amendments have been attested and posted in the manner provided for Town Meeting and a copy of which proposed amendments has been duly certified to the Town Clerk seven (7) days prior to Town Meeting and copies of which have been preserved as public records and made available for distribution by the Town Clerk and at the Annual Town Meeting.

Art. 21. To see if the Town will vote to authorize and empower the Selectmen elect following the next regular Town Meeting to appoint a committee of seven individuals whose

functions shall be to make a study of and to prepare a special town manager form charter for the Town of Yarmouth with power and authorization to have said charter presented to the Legislature of Maine in due form at the 1965 legislative session for consideration and approval. Following same it shall be acted upon by the town voters at a duly constituted Town Meeting.

Art. 22. To see if the Town will authorize the Selectmen to appoint a Shellfish Conservation Committee consisting of five residents of Yarmouth, and raise and appropriate the sum of \$250. and under selectmen supervision to spend the same for necessary expenses for survey work. This committee to effectuate and promote on behalf of the Town a shellfish management and conservation program as accepted by the Commissioner of the Department of Sea and Shore Fisheries on March 2, 1964, under Revised Statutes of Maine, 1954, Chap. 37A.

Art. 23. To see if the Town will vote to adopt the following ordinance regulating the taking of clams, quahogs and mussels within the boundaries of the Town of Yarmouth, Maine.

#### ORDINANCE—TOWN OF YARMOUTH, ME.

##### Sec. 1, LICENSES REQUIRED TO DIG OR TAKE CLAMS, QUAHOGS OR MUSSELS IN YARMOUTH: DEFINITIONS: REVOCATION.

No person, firm or corporation, shall, within the Town of Yarmouth, Cumberland County, dig, or take any clams, quahogs or mussels, without first having obtained a license from the municipal officers of said Town of Yarmouth, who are authorized to grant and issue such licenses at a fee of \$3.25, 25¢ of which is payable to the Town Clerk. No license shall be granted, or issued to any person, firm or corporation, unless said person, firm or corporation is a resident of said Town of Yarmouth. Nothing herein shall prohibit any inhabitant, or temporary resident, or any riparian owner of shores or flats within said town, from digging or taking clams, quahogs and mussels for food for himself and family without license; provided the amount so taken, shall not be in excess of 1 peck per tide per person. Licenses issued under this section, shall expire at midnight of December 31st of the calendar year in which they are issued.

The term "a resident" shall mean a person, firm or corporation who has resided in this State for a term of at least 6 consecutive months and in the Town of Yarmouth for at least 3 months prior to making application for license.

Sec. 2. That the Selectmen of the Town of Yarmouth with the advice of the Shellfish Conservation Committee are authorized to negotiate reciprocal digging privileges with the Selectmen or authorized representatives of other towns if and when it is advisable for mutual benefit; this to be effective only after a public hearing has been held by the Selectmen relative to the same.

Art. 24. To see if the Town will vote to enact the following Fire Department Ordinance:

FIRE ORDINANCE  
FOR THE TOWN OF YARMOUTH  
COUNTY OF CUMBERLAND  
STATE OF MAINE

I. Prohibition of Fires

A. It shall be unlawful for any person or persons to burn, kindle, ignite or set fire to any household accumulation, paper, cardboard, or other light combustible material on his own land or elsewhere, except when such burning shall be done in a screened receptacle having a screened covering, or in a steel barrel or drum with a metal cover, and under proper safeguards, said screened receptacle, barrel or drum to be located not less than twenty-five (25) feet from any building or structure and providing at least five (5) feet of mineral soil completely surrounds, said receptacle, barrel or drum, or except when the ground is covered with snow, without first obtaining a permit from the Fire Chief.

B. It shall be unlawful for any person or persons to burn, kindle, set fire to or ignite any combustible material of any sort within the limits of any public way, within the Town of Yarmouth without the written permission of the Fire Chief.

C. The Fire Chief shall, by publication in a newspaper or other publication having general circulation within the Town, prohibit or ban all outdoor burning of trash, leaves, grass or other combustible materials for such period of time as he deems necessary, when in his opinion a condition of serious fire hazard exists due to drought or other reasons. During the period of such prohibition or ban it shall be unlawful for any person or persons to set fire to, burn, kindle or ignite any trash, lumber, leaves, straw, grass or other combustible materials anywhere out-of-doors, except that during such period of prohibition or ban the Chief may grant specific written permission for burning at such time and in such manner as he deems necessary to assure safe control of fire.

## II. Equipment

A. No person shall use any Fire Department apparatus or equipment for any private purpose, nor shall any person willfully and without proper authority take away or conceal any article used in any way by the said Department.

B. No person shall enter any place where Fire Department apparatus is housed, or handle any apparatus or equipment belonging to said Department unless accompanied by, or having special permission of, an authorized officer of said Fire Department.

C. The Selectmen of the Town of Yarmouth, at the request of the Fire Chief, are hereby authorized to enter into agreements or contracts with nearby communities or governing bodies of other organizations to provide the members of such communities or organizations with fire protection or to establish a mutual aid system.

D. No apparatus shall be used by the Fire Department or by any person or persons for any purpose except public fire prevention and control, or for instruction of Department personnel, or permitted to leave the Town of Yarmouth except in response to a call for aid at a fire in a neighboring community, without the consent of the Chief of the Fire Department of Yarmouth. The officer in charge of the Department shall have the power to assign equipment for the response to calls for

outside aid in accordance with Section II C, and in any other cases only when the absence of such equipment will not jeopardize fire protection in the Town of Yarmouth.

### III. General

A. No person shall drive any vehicle over fire hose except on specific order from the Fire Chief or other authorized officer of the Fire Department in charge where such hose is used.

B. It shall be unlawful for any person or persons to park any vehicle in any manner which will obstruct the entrance to any fire station in said Town, or obstruct the entrance to any such fire station in any other manner, or to park any vehicle within ten (10) feet of any fire hydrant or cistern.

C. No unauthorized person in any vehicle shall follow within five hundred (500) feet of any apparatus belonging to the Fire Department that is proceeding to answer an alarm, nor park any vehicle within three hundred (300) feet of a fire.

D. All motor equipment of the Fire Department, and all personal cars or vehicles of Fire Department members shall have right of way over all other traffic when responding to a fire alarm.

E. No person shall maliciously turn in or cause to be turned in a false fire alarm.

### IV. Penalties

Any person or persons found guilty of a violation of this ordinance under Section I, II, or III shall be punished by a fine of not less than five (5) dollars nor more than twenty (20) dollars for each such violation, to be recovered by complaint to the use of the Inhabitants of the Town of Yarmouth.

### V. Amendments

This Fire Department Ordinance may be altered, amended or repealed at any Town Meeting, under an appropriate article in the Warrant, by a majority vote of the legal voters of the Town present at such Town Meeting.

## VI. Validity

A. If any part or parts of this ordinance is for any reason held to be invalid by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this ordinance.

B. All ordinance or parts of ordinances in conflict with or inconsistent with the provisions of this ordinance are hereby repealed.

C. This ordinance shall take effect immediately after it has been enacted by the legal voters of the Town of Yarmouth at a Town Meeting, provided that it has been posted for at least one (1) week prior to said Town Meeting in three (3) or more public and conspicuous places in Yarmouth, Maine, and has been published in the Portland Press Herald and in the Portland Evening Express printed in Portland in the County of Cumberland, State of Maine.

Art. 25. To see if the Town will vote to require that all articles providing for the raising and expenditure of town money shall first be presented to the Committee of Twelve. The Committee of Twelve shall then hold a public hearing on said articles and shall give notice of the time and place of hearing in the same manner as is provided by law for the notice of a town meeting.

Art. 26. To see if the Town will vote to authorize the Selectmen, on behalf of the Town, to negotiate and execute a five year (5) contract (with renewal options) for the collection of garbage for a five year period, said contract to replace the 5 year contract which expires March 31, 1964. The terms of said new contract to be left to the discretion of the Selectmen.

Art. 27. Shall the following be adopted:

"Voted that the Town approve the Plans and Site Location (in front of the Rowe School) of the new school building with 10 classrooms and necessary facilities at the Rowe School site, substantially according to plans and specifications dated February 25, 1964 of James C. Saunders Associates or supplemented,

as now placed on file with the Town Clerk; said plans and site location being approved, ratified and confirmed as being in conformity with Article Four of the November 15, 1963 referendum."

(The Selectmen request "yes or no" in writing and check list for approval of this article).

Art. 28. To see if the Town will vote to transfer the balance of \$6,400.00 (raised at the Annual Town Meeting Warrant for 1963 Article 9 for certain roads) to a matching fund Reserve Account for Recreation. [50% Federal, 25% State and 25% Town].

Art. 29. To see if the Town will vote to raise and appropriate the sum of \$300.00 for a survey and study of the Newell Road drainage problem.

Art. 30. To see if the Town will raise and appropriate the sum of \$2,500.00 for an engineering study of the Littlejohn Island Causeway.

Art. 31. To see if the Town will raise and appropriate the sum of \$7,500.00 for a wheel tractor with loader and broom attachment with snow blower.

Art. 32. To see if the Town will vote to raise and appropriate \$1,600.00 for 3 mobile radios; 2 police and 1 public works.

Art. 33. To see if the Town will vote to change the method of election of Police Chief and will authorize the Selectmen to appoint the Police Chief annually commencing immediately after the Annual Town Meeting in 1965, pursuant to Section 52 of Chapter 90A of the Revised Statutes of Maine, as amended.

Art. 34. To authorize the Selectmen to choose any committee authorized by this Town Meeting and act thereon.

(Additional articles to follow — received too late for this publication).

Given under our hands this 12th day of March A.D. 1964.
